I am a software engineer with ten years of professional experience, five of which were focused on building and leading high-performing teams across Google and DeepMind.

My work has spanned from widely used full-stack web applications to machine learning research published in *Nature*.

I am interested in solving the engineering challenges that arise when deploying the scientific state-of-the-art in the real world.

Education

University of London

Birkbeck College

MSc Cognition & Computation (**Distinction**)

Oct 2014 – Aug 2016

University of Cambridge

Christ's College

BA (Hons.), MA (Cantab), Computer Science (**2.1**)

Oct 2008 – Jun 2011

Experience

DeepMind

Staff Software Engineer

London

Aug 2020 – Present

Google

Engineering Lead, Health Research UK

London

Jan 2019 – Aug 2020

- Lead for Google Health's 23-engineer research team in the UK.
- Manage three subteams across ophthalmology, radiotherapy and medical records research.
- Focus on the real-world deployment of state-of-the-art machine learning models.

DeepMind

Staff Software Engineer, Health Research

London

Oct 2016 – Jan 2019

- Built and lead a 12-person engineering team in Health Research.
- Designed and built the infrastructure behind several *Nature*-family publications.
- Created UXR-driven iOS prototypes for the deployment of clinical predictions.

Google

Senior Software Engineer

London

Oct 2011 – Oct 2016

- Tech lead for full-stack team of 8 engineers building high-revenue sales tools.
- Lead engineering for a knowledge management system relied upon by >20,000 Google salespeople.

Bloomberg

Research & Development (Internship)

London

Jun 2010 – Sep 2010

- Given sole control of an important, time-critical project.
- Designed and delivered a suite of simulation and testing tools in C++.

Skills

- Hiring, building and leading effective engineering teams
- Machine learning infrastructure and data engineering
- Full-stack application development

Languages.....

- Python (incl. TensorFlow, NumPy, SciPy, etc)
- Haskell, Rust, Go
- JavaScript, PureScript & experience with modern web development
- Less recent professional experience in both C++ and Java
